

The Encore Discovery Solution is geared for library user success by providing a single search for all kinds of local and electronic collections as well as opportunities for social interaction. Encore offers the only discovery solution that puts local collections and digital content on equal footing – so users never miss a thing.

“We’re great fans of the new seamless and intuitive OverDrive integration which allows our patrons to easily discover, checkout, hold, download and track OverDrive eBooks in Encore.”

— Eeva Stierwalt,
ILS Solutions Specialist
London Public Library (Canada)

With a single relevance-ranked set of articles, eResources, eBooks, and print materials, plus harvested digital collections & institutional repositories, users will discover first-rate results and content from their first search forward. With full integration with the LSP/ILS, libraries can provide sophisticated, real-time information to their users no matter the source.

“Print, archival, and electronic resources fold together in Encore. Our digital collections are spread across four data platforms but are brought together in a single Encore search.”

— DeeAnn Allison,
Professor and Director of Computing
University of Nebraska-Lincoln

The Power of Partnership

The Encore Discovery Solution offers a superior discovery experience that takes users where they want to go – from helpful reviews from their peers, to hard-to-find books from partner libraries, to immediate full text access to articles and eBooks. Innovative has worked extensively with customers and partners such as EBSCO Information Services to improve the user experience and search flow. Add in user personalization features and real-time status and metadata from LSP/ILS integration, and you have the most complete discovery platform on the market.

Article, eBook, and social content in one discovery environment.

Encore Duet

Encore Duet brings users the most comprehensive collection of full-text articles available from EBSCO Discovery Service™ (EDS). EDS is the largest, most encompassing single index of the world's literature, with tens of thousands of participating publishers and other partner resources.

3M Cloud Library and OverDrive eBook Integration

Library users can initiate eBook checkouts and place holds for eBooks directly in the Encore environment. Encore also displays the status of eBook materials to logged-in users and provides the same information in the patron account view. All at no additional cost for 3M Cloud Library and OverDrive users!

ChiliFresh Social Ratings and Reviews

ChiliFresh in Encore empowers social interaction with the library with a rich database of trusted ratings and reviews written by library users from around the world. Encore displays patron ratings and reviews in the initial results set and at the item level, and invites users to add ratings and reviews of their own!

All Types of Libraries

Encore's flexibility of content and rich features make it a perfect fit for any type of library. With one search, undergraduates may discover a relevant book on reserve, an article by their professor in a local repository, or a local archival image that augments their report. Scholars can rely on the depth and sophistication of article integration with specialized facets that help them dig deep into their subject. Public library users will find more popular titles, more quickly, than in any other discovery solution. Encore offers 3M Cloud Library and OverDrive content perfect for public libraries, and full, real-time integration of their print and eBook lending in a single personalized view. Special libraries will be able to keep their local collections front-and-center by adding local treasures such as image and archival collections.

Superior Discovery Experience

Encore provides a superior discovery experience and takes users where they want to go – from helpful reviews from their user peers, to hard-to-find books from partner libraries, to immediate full-text access to articles and eBooks. User success begins with Encore.
